District Judge Raymond A. Charron District Court No. 26, Division I River Rouge, Michigan

We have audited the basic financial statements of the District Court Funds of District No. 26, Division I (a component unit of the City of River Rouge, Michigan) as of June 30, 2004. These financial statements are the responsibility of the District Court No. 26, Division I, City of River Rouge, Michigan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District Court Funds of District No. 26, Division I, City of River Rouge, Michigan at June 30, 2004, in conformity with accounting principles generally accepted in the United States of America.

The accompanying supplemental information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. Our audit was conducted for the purpose of forming an opinion on the basic financial statements. The supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The accompanying financial statements do not include a management's discussion and analysis, which would present an analysis of the financial performance for the year. The Governmental Accounting Standards Board has determined that this analysis is necessary to supplement, although not required to be a part of, the basic financial statements.
